## The Story of Matariki

In Māori culture, **Matariki** is the Pleiades star cluster and a celebration of its first rising in late June or early July. The rising marks the beginning of the new year in the Māori lunar calendar.

One of the most popular stories is that the star Matariki is the whaea (mother), surrounded by her six daughters, Tupu-ā-nuku, Tupu-ā-rangi, Waipunarangi, Waitī and Waitā, and Ururangi. Matariki and her daughters' journey across the sky each year to visit their tupuna wāhine, Papatūānuku.

Historically, Matariki was usually celebrated for a period of days during the last quarter of the moon of the lunar month Hōngonoi (around June). The ceremony involved viewing the individual stars for forecasts of the year to come, mourning the deceased of the past year, and making an offering of food to replenish the stars. Some Māori use the rise of Puanga (Rigel) or other stars to mark the new year.

Matariki was first celebrated as an official public holiday in New Zealand on 24 June 2022.
